EDUCATION

Institute/University

B-tech Computer Science Engineering Shri Shankaracharya Institute of Professional Management and Technology, Raipur

07/2019 - Present

Raipur, Chhattisgarh

Schooling

Shankar Nagar Vidya Mandir HR. SC. School

2017 - 2019

Raipur, Chhattisgarh

Schooling

Mariya's HR. SC. School

2015 - 2017

Chirimiri, Chhattisgarh

PERSONAL PROJECTS

Movie Recommend-er System (07/2022 - 07/2022)

- This project is based on ML which will give you 5 similar movies as you entered your desired movie. This project will simplify the searching of the similar movies. This can be the best model for movie enthusiasts.

Spotify-Data-Analysis (06/2022 - 06/2022)

- This is the data analysis of Spotify with informative visualization, data taken from Kaggle website. Here, we have taken the stats of previous years to analyze the informative part of Spotify. This helps in taking major decisions to optimize and maximize the quality of the Spotify App.

Crop Yield Prediction Using ML (05/2022 - 07/2022)

- This is a ML-based project which will predict the crop yield according to some attributes, and it will provide you about 98% of accuracy. I have used the KNN (K-nearest Neighbor) as it gives me the highest accuracy among all the other algorithms like (Decision Tree, Linear Regression).

Flipkart Home Page Clone (03/2023 - 03/2023)

- With the help of using only HTML & CSS I have built a clone home page of the Flipkart website. I have made the home page which is nearly similar to the Flipkart original website without the JavaScript.

POTATO LEAF DISEASE DETECTION & CLASSIFICATION USING CNN (02/2023 - Present)

- Currently working on this project, this project will mainly help the Agriculture department. This ML model will tell that whether the Potato leaf is healthy or not, and if unhealthy then which disease.
